- ▶ Fiscal Impact

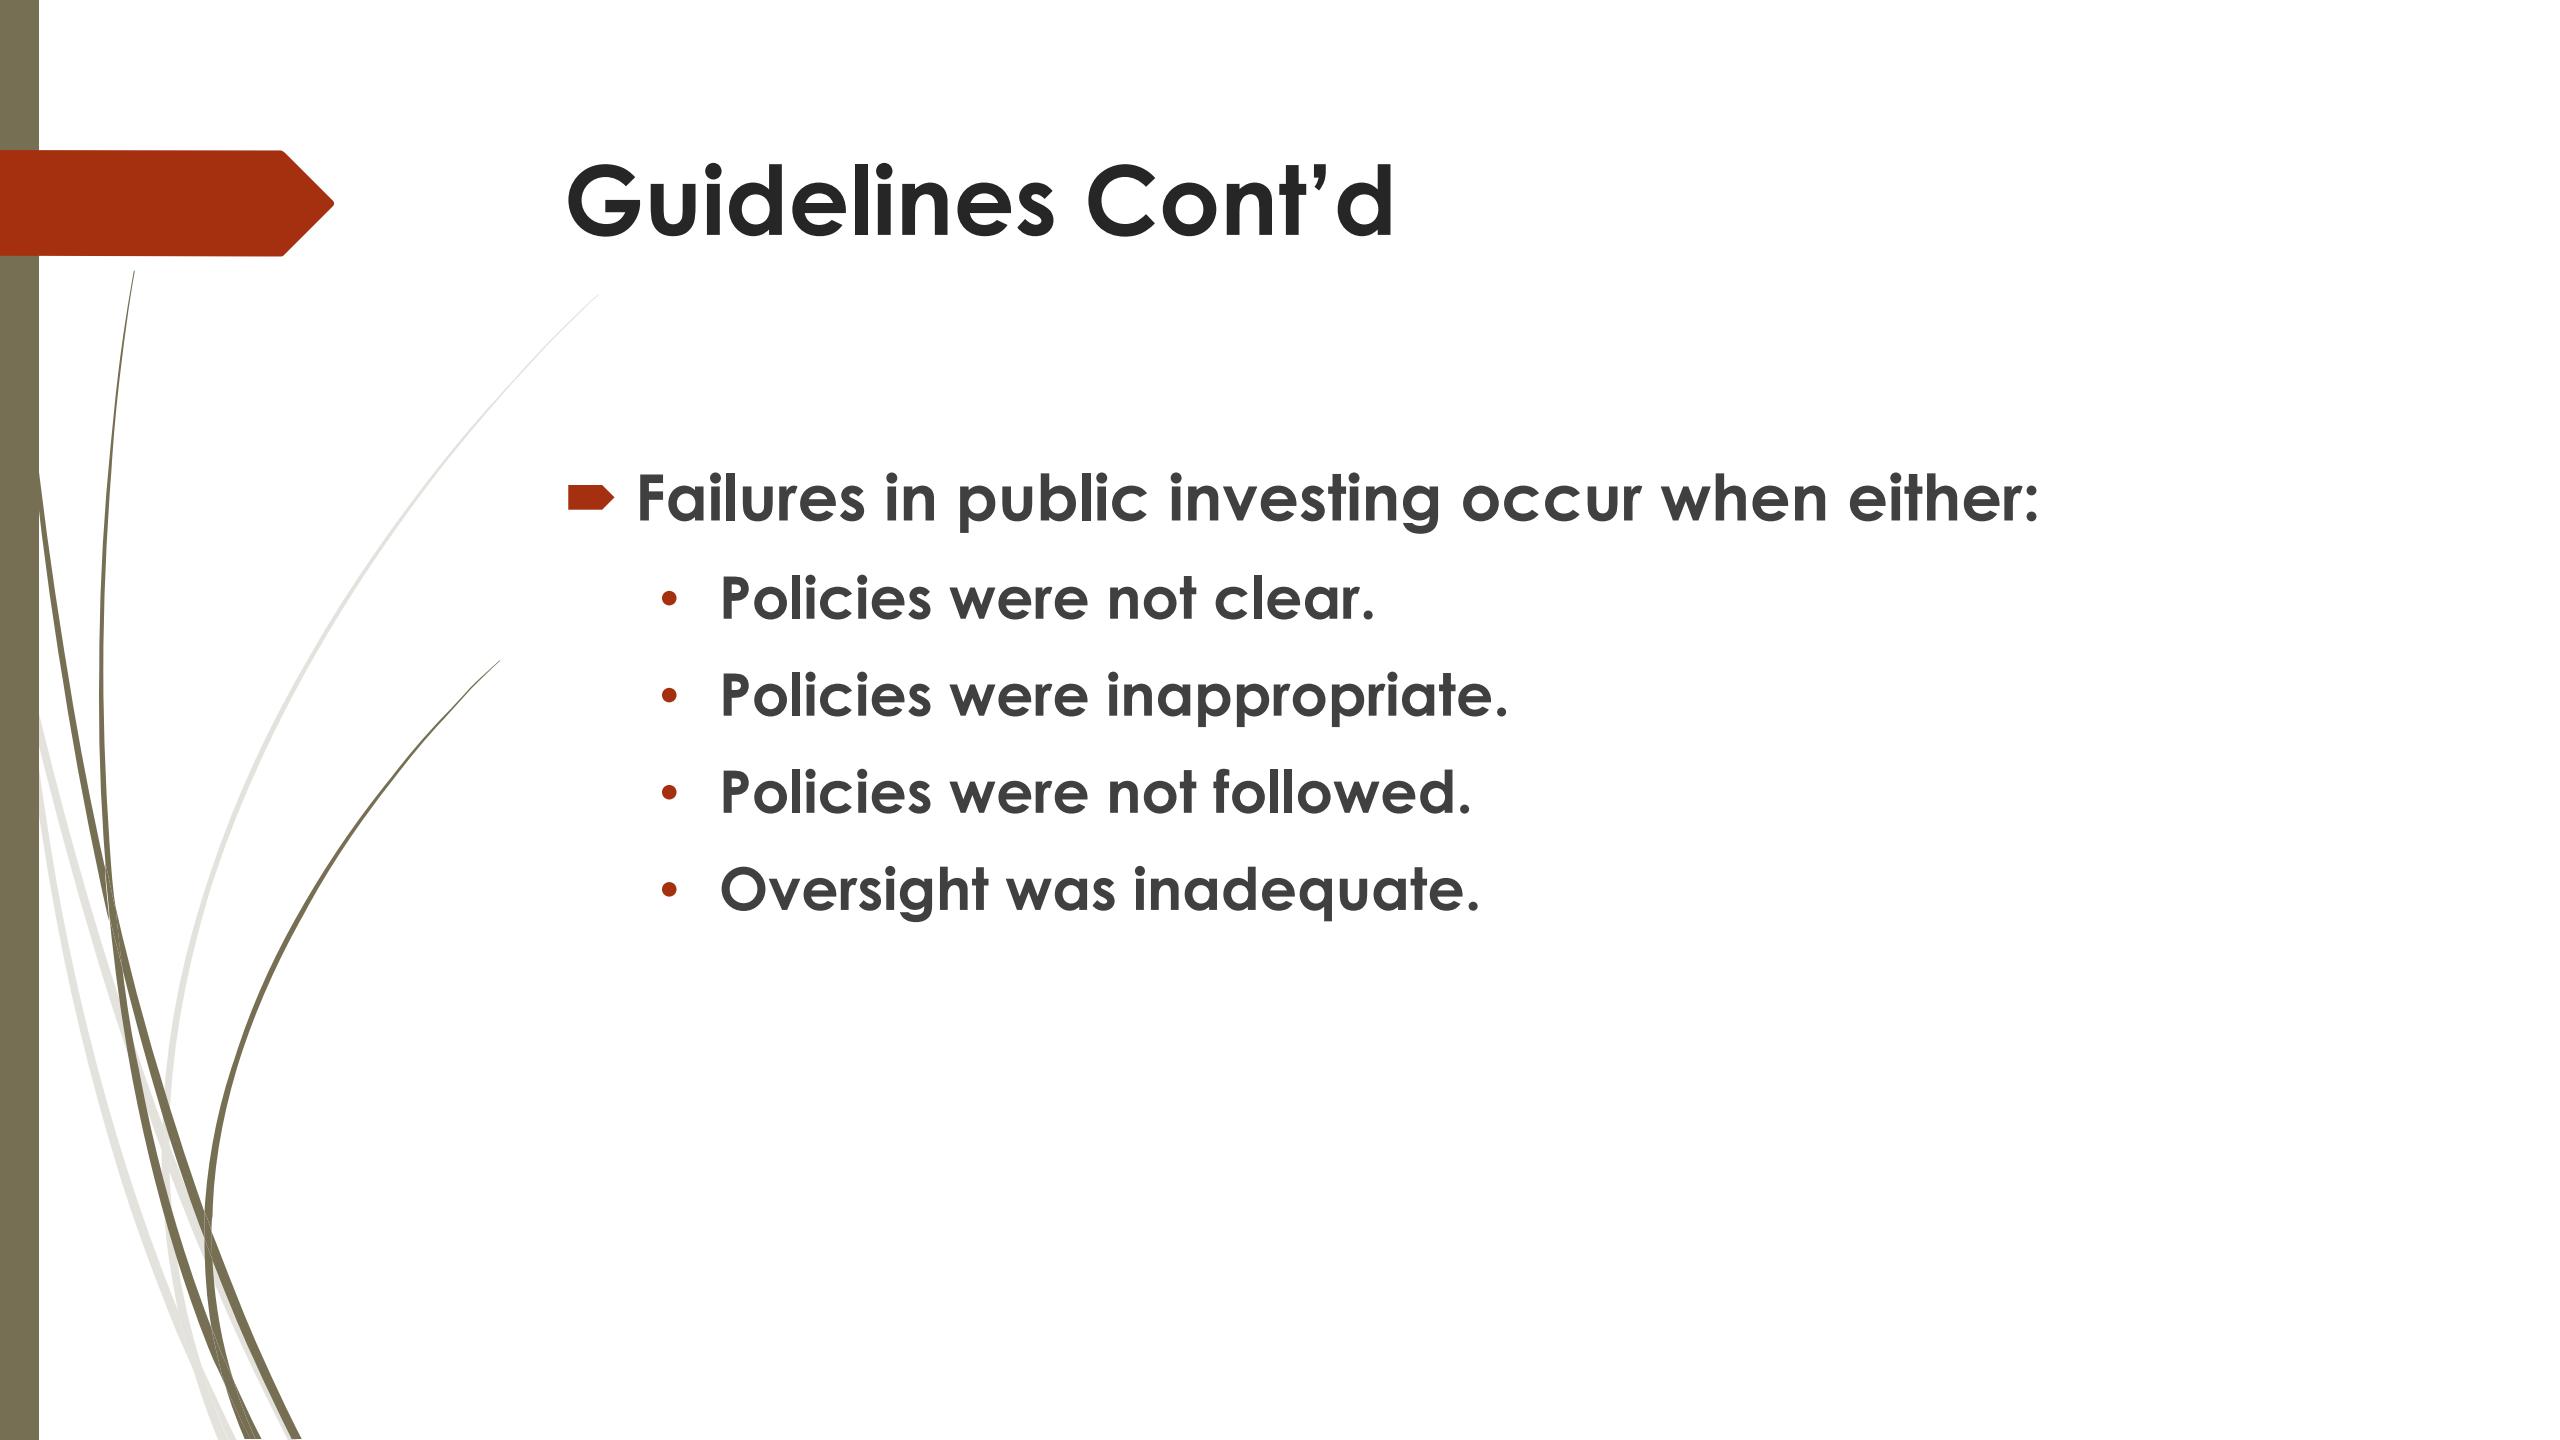

Key Investment Objectives for Municipal Investing

- The City Treasurer maintains the City's cash flows while earning a competitive rate of return on the Investments within the constraints of the City's investment policy and state law.

- **Safety** - Protect Principal
- **Liquidity** – Provide necessary liquidity to cover both ongoing and unexpected cash needs
- **Yield** – Maximize earnings recognizing need for safety and liquidity, and subject to restrictions specified by state statutes and the local governing body

INVESTMENT REPORTING GUIDELINES - CMTA

- ▶ Always remember whose money it is (it's the community's, not yours) – and act according in a responsible stewardship capacity.
- ▶ An investment manager's objective is to earn a reasonable rate of return on the City's investments, while preserving capital in the overall portfolio. It should never be an investment manager's goal to earn maximum returns on the City's portfolio as this would expose the City to an unacceptable level of risk

Guidelines Cont'd

- ▶ **Failures in public investing occur when either:**
 - Policies were not clear.
 - Policies were inappropriate.
 - Policies were not followed.
 - Oversight was inadequate.

Guidelines Cont'd

► Questions to Ask:

- Do you review the investment policy?
- Do you understand the City's investment program?
- Do you receive and review periodic investment reports?
- Are they clear, concise? Are they readable?
- Do you fully understand them?
 - If you can't, this is more likely to be because they've been presented poorly, and may in fact reflect problems, than any "technical" problems with your ability to understand them because it's too "complex."
 - It's the job of your staff to make them readable and understandable;
 - and if the City's portfolio is genuinely that complex, perhaps it shouldn't be.
