Yes - I support adding 1 parking space here.	Yes - I support an 8 AM start time for the yellow curb commercial loading zone.	Yes - I support adding 2 parking spaces here.	No - I oppose adding 2 parking spaces here.	Spaces should be added to the commercial side of the street. Residential driveways are hard to enter and exit when large trucks park, blocking visibility. Reducing red curbs along the residential driveways may be unsafe.

The entrance to the driveway between 511 and 7-11 store is very dangerous and needs the current red zones on both sides of the driveway as you can't see the traffic from the north and freight trucks park in the red zone just to the south of that driveway to deliver goods to 7-11.

Question: How are children supposed to cross a busy street (Meyer Ln) on their way to school? There is no access to Ralston and may time turning traffic can't see people crossing Ralston. Washington and Adam schools are east of Meyer Ln. There needs to be cross walking access to Ralston. Every single Meyer Ln unit on the West has difficulty turning left/ north on to Meyer Ln with the current traffic situation. I disagree adding more cars on Meyer Ln due to the current congestion of trucks. Garbage trucks, garbage bins on the street ... it's a very busy street and chaotic. Thank you for adding the 25 mile speed limits parking on the street - more can be done to curb traffic. Speed bumps would help - available for more Q and A - maybe set up a zoom call.
5/4/2024 23:04:16	511 Meyer Ln Unit 25	Yes - I support adding 2 parking spaces here.	Yes - I support adding 1 parking space here.	Yes - I support adding 1 parking space here. Yes - I support adding 2 parking spaces here.	We really appreciate that you've re-assessed the red curbs. The most recent change was not properly thought out, even though it might have been well intentioned. Please also make sure to "remove" the red paint rather than painting over it in white. Overpainting caused a lot of confusion last time, when the top paint partially wore off within a year. At the Ralston intersection, consider adding only 1 space on Meyer, as a compromise for safety viewing northbound traffic. And then 1 space of red curb on Ralston itself, easing entry going eastbound, which today is light if another car is waiting at the stop sign.

Despite what the city survey says, it is very difficult to see when exiting the driveway near 511 / 515 Meyer due to parked cars. This is because of the steep exit driveways on the west side of the street. I do not feel safe walking or letting my children riding bikes on this street.
5/2/2024 19:39:13	519 Meyer Ln Unit 49	Yes - I support adding 2 parking spaces here.	Yes - I support adding 1 parking space here.	Yes - I support adding 1 parking space here. Yes - I support adding 2 parking spaces here.	Yes - I support adding 2 parking spaces here.	Thank you for listening and working on a solution!
5/7/2024 7:07:53	598 Meyer Lane A											No - I oppose adding 2 parking spaces here.		As a tenant of 598 A Meyer it's already risky coming out of the drive way with cars parked on the curb at the 500-550 section. Adding parking to both sides would make it much more dangerous for us to pull out of our driveway blocking the view of on coming traffic from both north and southbound traffic, we experienced this issue when commercial trash cans are located on the space and a car is parked on the other side it makes it very difficult to pull out of the driveway safely.
5/2/2024 14:45:57	609 Meyer Lane #16, Redondo Beach CA 90278	Yes - I support adding 2 parking spaces here.	Yes - I support adding 1 parking space here.	Yes - I support adding 1 parking space here. No - I oppose adding 2 parking spaces here.	No - I oppose adding 2 parking spaces here.	I oppose any removal of red zones, because it is very difficult to see traffic when pulling out of a driveway, especially when a larger vehicle is parked next to the red zone. I frequently make a left turn from Ralston onto Meyer Lane. Because of the hills in either direction, it is very difficult to see traffic coming. It would be safer if there were a stop sign there. If not for speed control, then so people turning from Ralston onto Meyer Lane would be able to see people stopped and could proceed in a safe manner. Meyer Lane is a heavily traveled street and often used by emergency vehicles. If these red zones are removed or shortened, there will be accidents.

Without the limited distance we currently have, exiting the driveways on the west side of Meyer will become even more difficult. It is currently extremely difficult anytime of day/night due to a lack of sightline. Difficult for both exiting the driveways and for thru traffic to see traffic exiting. I drive a car, not SUV so my sight line is poor compared to if I was higher up in a truck or SUV. A lot of us drive cars so I know this isn't just difficult for me. The east side of Meyer has wider driveways already and it is much easier to see those exiting at the 3 residential complexes on that side of the street. A year or so ago, a large tow truck was parking overnight along the 701 area (where he lived) and he was kind enough, when asked, to start parking further down- in the loading area at 600. Please maintain the current red curbs along the 511- 701 area. Thank you!

No - I oppose adding 2 parking spaces here.	<p>I am the HOA President of Meyer Manor (609 Meyer Lane) and our biggest concern is liability as a result of accidents and would like to keep the red curb by our north and south driveways.</p> <p>The red curb between 701 and 609 Meyer is required. Our neighbors at 701 park on the westside of the sidewalk and drive over the sidewalk onto the 609 driveway to exit. Instead of removing the red curb it would be great to remove the curb to allow the tenants of 701 exit onto the road. If the red curb is removed, then the tenants of 701 will continue to drive on the sidewalk to the 609 driveway to exit. This is unacceptable. I am the HOA President and would be open to a meeting with the owners of 701. We have more challenges when Amazon stops in the middle of the road, which happens regularly.</p> <p>On another note, currently when pulling out of the driveway of 609 it's very difficult to see the southbound traffic and drivers speed up after the drop in the road. It is also very difficult to enter the driveway if a vehicle is parked right by the driveway. When I came in last night a vehicle was parked in the red zone (legally) in front of 701 and it made it difficult to enter the driveway.</p> <p>For 630 Meyer instead of opening up the RC and adding the two spaces would it be possible to add a loading zone or something for the various delivery trucks (Amazon, UPS, etc.) between 608-609 and allow for overnight parking. Most of the units have landscape companies with trucks as well. Then we have trash and recycle days and all the bins are lined up and sitting out most of the day.</p> <p>For the south driveway, we would like to keep the red curb. If we need to give a little, we would consider reducing 28' RC to 14' proposing 12' RC+84' Parking+10' RC</p> <p>For the reasons above, we would appreciate that the red curb remains in place between 609 and 701 driveways as well as the red curb by the south driveway.</p> <p>Annette Adam, HOA President, 609 Meyer Lane, Unit 13 310.809.8302 President.meyermanor@gmail.com annette50278@gmail.com</p>
4/30/2024 11:10:09	609 Meyer Ln Unit 20						No - I oppose adding 1 parking space here.		No - I oppose adding 1 parking space here.						<p>I have daily near-miss collisions exiting the north driveway of 609 Meyer Ln because parked cars along the west side of the street obstruct the view of approaching cars driving at least 30 MPH from both directions. It would be dangerous to remove the existing red curbs around the north driveway. This is especially true as Meyer Ln is used by many as a major thoroughfare and not as a residential access road. Drivers are operating their vehicles too quickly to safely avoid collisions so residents bear the brunt of the stress of trying to be safe trying to leave their homes.</p> <p>For added emphasis, I would like to officially petition increasing the red curbs as the existing situation is highly dangerous. In my humble opinion, I cannot emphasize this enough. It is very dangerous trying to exit the north driveway at 609 Meyer when cars are parked along the west curb. The only time it is safe to exit the north driveway is when parking is prohibited along the west side of the street on street sweeping day.</p>
5/14/2024 21:15:40	609 Meyer Ln Unit 5	Yes - I support adding 2 parking spaces here.	Yes - I support adding 1 parking space here.	No - I oppose adding 1 parking space here. Yes - I support adding 2 parking spaces here.	<p>I support these suggestions as parking is challenging. However, I'm concerned Athens Services will struggle to place large dumpsters along the curbs on Mondays, Thursdays, and Fridays. These dumpsters are moved from trash enclosures in the larger complexes because the large trash trucks cannot easily navigate to their locations. Can the City touch base with Athens and make sure their is a solution?</p>

Yes - I support an 8 AM start time for the yellow curb commercial loading zone.			<p>Due to the number of accidents (4 that I know of) in recent years of residents exiting 700/720 shand driveway with limited visibility to cars traveling Northbound on Meyer Lane, please do not reduce the red curb just to gain one parking spot. This will make our driveway even more dangerous, and I would anticipate more accidents happening. Creating a safety hazard for one parking spot does not make sense. The request for more parking spaces came from a renter at the Ralston/Meyer building. Adding one parking space down by 700 Meyer doesn't solve this problem. Also, it is my understanding that the building provides one parking space per apartment. If you are renting under such an agreement, you accept the fact that your second vehicle will need street parking and you may need to walk further to find a space. We live in a congested urban city where this is commonplace. Please do not reduce the red curb at 700 Meyer Lane.</p>
4/29/2024 22:51:23	700 Meyer Ln #9	No - I oppose adding 2 parking spaces here.	No - I oppose adding 1 parking space here.	No - I oppose adding 1 parking space here. Yes - I support an 8 AM start time for the yellow curb commercial loading zone.	No - I oppose adding 2 parking spaces here.	No - I oppose adding 2 parking spaces here.	<p>I attended the Public Works meeting that led to this "study" and can't believe that you are considering this change based on the complaint of one apartment resident at 600 Meyer. Adding a few parking spots on this street will not resolve this gentleman's or any other apartment residents problem. However, it will increase the chance of more accidents to tax paying homeowners who don't park in the street because they have appropriate off street parking. Why create potential injuries to many based on one person's complaint who may move at anytime and doesn't pay any property taxes? I have first hand experience of being involved in an injury accident due to the poor visibility exiting the driveways on this street. Your study does not take into account site lines from the driveways, especially the driveway at 700 Meyer. Even with the red curb in place, many people park in the red zone anyway. A vehicle was parked in the red zone on the day of my accident. With a shared curb cut for 720 Meyer the potential for multiple vehicles exiting simultaneously makes the situation even worse. You state that speed cushions are not justified. I see them on N. Francisca between Beryl and Catalina. I can't see how the average speed on that street is any different than on Meyer. They would help the situation if you feel that extra spaces are absolutely necessary and would come at low cost compared to an injury accident. I strongly encourage you to listen to those who reside at this complex. We have opposed a similar proposal in the past and our concerns have not changed.</p>

People run the stop signs at 3 way stop at Ripley and Meyer all the time. Not sure what can be done to remedy this safety concern. Also a very dark corner on south west side of Ripley and Meyer. Very difficult to see pedestrians cross at night. Thank you for the survey.

5/19/2024 17:19:56	As a resident at 801 Meyer I strongly object to shrinking the red zone across from me. It is difficult to see traffic coming up Meyer towards Ralston particularly when a van or truck is parked on Meyer close to the intersection of Meyer and Ralston. I've seen many actual and near collisions there and experienced difficulty there myself. The tenants in the apartment complex on Meyer often park illegally in the red so we already know what the impact of reducing the red zone will be. Having more vehicles parked in that area will also create difficulty for us backing out of our driveway because it won't be so easy to see traffic on Ralston. It's interesting to me that the traffic survey for speed, etc. was done at the 600 block of Meyer. It needs to be done at the 800 block to really understand the problems of speed and traffic on this street. I believe the results would be significantly different and should be done prior to making any changes.	No - I oppose adding 2 parking spaces here.	Yes - I support adding 1 parking space here.	Yes - I support adding 1 parking space here.	Yes - I support adding 1 parking space here.	No - I oppose adding 1 parking space here.	No - I oppose adding 1 parking space here.	No - I oppose adding 1 parking space here.	Yes - I support adding 2 parking spaces here.	Yes - I support adding 1 parking space here.		Yes - I support adding 2 parking spaces here.	Density and traffic on Meyer is bad to begin with. Adding more parking would be more tolerable if the traffic could be slowed with humps or bumps. I believe if a survey was conducted in the 800 block, the results would support some slowing mechanisms at the Meyer/Ralston intersection for sure. Please consider doing that before adding additional parking in an already congested area.
5/3/2024 10:58:17	I concur as a resident at 800 Meyer Lane that the over abundance of red curbs is ridiculous, and has increased parking impossibilities to the residents near those overly large red sections. The proposed decrease of red curbs from 150th to Ralston is an acceptable proposal vs the original version.	Yes - I support adding 2 parking spaces here.	Yes - I support adding 1 parking space here.	Yes - I support adding 1 parking space here.	Yes - I support adding 1 parking space here.	Yes - I support adding 1 parking space here.	Yes - I support adding 1 parking space here.	Yes - I support adding 2 parking spaces here.	Yes - I support adding 1 parking space here.	Yes - I support adding 1 parking space here.	Yes - I support adding 1 parking space here.	Yes - I support adding 2 parking spaces here.	I did not respond for the 700 Meyer Lane question because it should be 2 spaces added. It is a very wide driveway with plenty of visibility from any part of it. There's no reason to make it a normal sized red zone vs an exaggerated one because of the entitled complaining residents that don't ever have to worry about parking as those do. Driving is still considered a privilege, you have to be aware of "ALL" surroundings before entering any road or intersection. There are other streets a block or more away that don't have any red curbs there so just fine!

Meyer/Ralston - So 713-715 Meyer 711-713 Meyer 720-740 Meyer 700 Meyer 703-705 Meyer 701 Meyer 630 Meyer 609 Meyer 612 Meyer 608 Meyer Loading 500-550 Meyer 511 Meyer
