As part of BRR #2, provided for the June 10, 2025 City Council Hearing, staff reported on all Commission feedback, apart from the Budget and Finance Commission meeting held on June 12. This report provides feedback from the commission's June 12 meeting.

Budget & Finance Commission

The Budget and Finance Commission met on June 12, 2025, and unanimously approved a motion to communicate the following points regarding the FY 2025-26 Proposed Budget and CIP:

- A recommendation to limit, to the extent possible, the amount of funds transferred out of the pension reserve fund.
- Ideally, the Commission would have had the opportunity to provide more specific recommendations on homelessness funding and capital project performance, but were limited by the lack of detailed data on:
 - Total homelessness program funding and spending to date; and
 - Historic capital project spending / performance vs. original budget

Question:

*What percentage of the City's major revenue sources does each zip code generate?
What primary economic activities occur in these areas?*

Response:

The tables below show the City's primary tax sources by zip code. Percentages are based on FY 2023-24 data, which is the last full year of actual revenue available. For the Property Tax and Sales Tax tables, some revenue sources, such as sales tax revenue received from the County and State tax pools, or certain property tax adjustments, are not associated with a specific address/zip code. The City's two current largest economic commercial area contributors are Rivera Village and the Waterfront, which are both located in the 90277 zip code.
