Residential Overlay (-R)	Min. 20 du/ac Max. 55 du/ac	<p>An overlay is a planning tool used to provide flexibility in land use designations. This designation allows uses that differ from or are in addition to, the underlying General Plan land use. This flexibility can help the City respond to State-mandated housing requirements and increase development options in different market conditions.</p> <p>The Residential Overlay allows residential infill projects in six areas of the City: The North Tech District, the northern portion of the Kingsdale neighborhood, the area immediately south of the city’s transit center, the area south of the Galleria, several areas along 190th Street, and an area along south Pacific Coast Highway east of Palos Verdes Boulevard.</p> <p>The North Tech District, and the areas south of the transit center and Galleria are all located in close proximity to existing or future Metro Station stops, which provides access to existing or planned transportation alternatives.</p> <p>Properties with the Residential Overlay designation may be developed as the underlying land use designation (industrial, industrial flex, or commercial depending on the location) and also have the option of developing as infill residential without the need for a General Plan amendment.</p> <p>The Residential Overlay is intended to encourage the development of affordable housing by providing added land use flexibility that could allow for the integration of new residential housing opportunities in close proximity to transit, job centers, and commercial service centers.</p> <p>Residential uses in the overlay area may be stand-alone projects, horizontal mixed use, or vertical mixed use.</p> <p>Residential projects must have a minimum density of 20 dwelling units per acre, and they cannot exceed the maximum density identified within each overlay area.</p>
