Good afternoon,

Questions for this evening's meeting. What's the current status of 510 Garnet? There was a conditional approval last meeting based on a sewer impact analysis. Have we heard any results? What is the plan for the protection of residents in the immediate & affected area regarding lead containment, capture & clean up for the "remodel" as required by the EPA. Where can we see the revised plans? Last meeting there was a verbal by the owner & architect to keep the chimney and copper chimney pot. What happened to Andrew Svitek? Who is authorized by the city to approve plans of homes under the Mills Act since there isn't a preservationist that works for the city?

Thank you,
Tessa Bodey
