

In accordance with the Preservation Ordinances and Preservation Plan, the Preservation Subcommittee (Marc Weiner-Staff, Desirée Galassi-Vice Chair, and Jeff Rowe Commissioner) have met and determined the following goals for this year:

- 1) Create new brochures for the Preservation Program (adjust wording as needed)
- 2) Position Preservation Program in a more easily found place on our web site, clean up the wording
- 3) Plan for a landmark homes community building event (possibly outside the historic library or inside if available) to stimulate pride in ownership, provide opportunity for sharing of information on alterations and improvements, historical information and photos of homes, and key public speakers. Invite media to write an article on the event and Preservation Program in Redondo.
- 4) Attend district community meetings and speak on preservation program ( work with council members to get on their agenda).
- 5) Plan for a Preservation and Historical Museum booth at the June Riviera Village festival. Will need to budget for printed materials (brochures), images, tabling etc...
