I'm very happy to see this discussed and would love to see traffic calming measures installed, particularly on Prospect Ave. since RUHS, Parras Middle School, and Tulita Elementary School are all on Prospect, and two other elementary schools are within a block or two. Despite the heavy pedestrian and bicycle traffic around these schools, it is one of only two major north-south streets in South Redondo, and so is the second busiest N-S street - an unsafe situation for the students, parents, and staff at the schools. I strongly recommend bulbouts to slow turns that might endanger pedestrians, as well as protected bike lanes to facilitate safe, independent routes for children at RUHS and Parras.

I believe there is a serious safety problem in this area. I recommend supporting the surrounding neighborhoods with strong enforcement and protections, such as, truck route signs, video enforcement, RBPd enforcement, and whatever other helpful measures you can recommend. I also recommend this be moved to the Council in a manner that allows them to discuss and approve as soon as it can be docketed. Thank you for your local service to the community.

## Agenda Item: eComments for J.2. PS25-0107 DISCUSSION OF RECENT FIRE EVENTS

I appreciate the commission's concern and discussion of the ongoing tragic fires in Los Angeles County, and hope that RBFD's efforts to assist in the firefighting effort are acknowledged. The near-term impact on Redondo Beach from the fires is likely to be the sudden displacement of thousands of households, many of whom are seeking to rehome in the South Bay for the near future, if not permanently. Particularly given the fact that 45-50% of Redondo Beach households are renters, this has the potential to push out long-time Redondo residents, as rental rates are raised to the maximum allowed by law and home prices are once again bid up far above asking. To address this surge of demand locally and regionally, and to prevent neighbors from being priced out of their homes, I urge the commission as well as city council to support the waiver of any discretionary review and expedite permitting for new housing construction. Furthermore, in the long term, given Redondo Beach's low fire risk, we should further encourage infill housing in our area, so that homes will not otherwise be built where wildfires are frequent and risk further loss of life and strain on the state's home insurance market. Thank you for your consideration.

I fully support any action that will bring the issue of unauthorized truck routes to the forefront in Torrance.
