Notwithstanding the foregoing, Peregrine shall treat all Customer Data as sensitive, proprietary, restricted, or otherwise requiring sensitive treatment ("**Sensitive Information**") unless explicitly directed otherwise by the Customer in writing. This includes all information protected by SB 1382 and all information within the scope of CJIS compliance.

7.1. Definition of Confidential Information. The term "**Confidential Information**" means all confidential and proprietary information of a party ("**Disclosing Party**") disclosed to the other party ("**Receiving Party**"), whether orally or in writing, that is designated as confidential or that reasonably should be understood to be confidential given the nature of the information and the circumstances of disclosure, including Customer Data, any Third Party Data, the Service, the Documentation, the Peregrine Technology, business and marketing plans, technology and technical information, product designs, and business processes.

7.2. Confidentiality. Each party agrees to protect the confidentiality of the Confidential Information of the other party in the same manner that it protects the confidentiality of its own proprietary and confidential information of like kind, but in no event with less than reasonable care. If the Receiving Party is compelled by law or a government authority to disclose Confidential Information of the Disclosing Party, it shall provide the Disclosing Party with prior notice of such compelled disclosure (to the extent practicable and legally permitted) and reasonable assistance, at Disclosing Party's cost, if the Disclosing Party wishes to contest the disclosure.

The parties' obligations in Section 7.2 shall not apply to any information that: (a) is or becomes publicly available without breach of any obligation owed to the Disclosing Party; (b) was known to the Receiving Party prior to its disclosure by the Disclosing Party without breach of any obligation owed to the Disclosing Party; (c) was independently developed by the Receiving Party without breach of any obligation owed to the Disclosing Party; (d) is received from a third party without breach of any obligation owed to the Disclosing Party; (e) required to be disclosed by the receiving party pursuant to law, rule, regulation, subpoena, or court order, including but not limited to the California Public Records Act (CALIFORNIA PUBLIC RECORDS ACT GOVERNMENT CODE SECTION 6250 ET SEQ.); (f) disclosed due to a rule, order, referral, or request, including without limitation any rule, order, referral, or request of Customer's City Council; or (g) disclosed as part of the Customer's customary contract approval process.

7.4. Public Records Acts. Peregrine acknowledges that Customer is a public entity and may be governed by applicable laws, rules, or regulations relating to public records (each a "**Public Records Act**"). Nothing in this Section 7 shall prevent Customer from disclosing Confidential Information for purposes of complying with an applicable Public Records Act to the extent legally required.

7.5. Remedies. If the Receiving Party discloses or uses (or threatens to disclose or use) any Confidential Information of the Disclosing Party in breach of this Section 7, the Disclosing Party shall have the right, in addition to any other remedies available to it, to seek injunctive relief to enjoin such acts, it being specifically acknowledged by the parties that such unauthorized disclosure or use may cause irreparable harm to the Disclosing Party for which any other available remedies are inadequate.

8. Warranties & Disclaimers.

8.1. Warranties. Each party represents and warrants that it has the legal power and authority to enter into this Agreement. Peregrine represents and warrants that (i) it will provide the Service using personnel of required skill, experience, and qualifications and in a professional manner consistent with generally recognized industry standards for similar services. Peregrine further commits to the continuous training of its personnel involved in the delivery of the Service, and (ii) the Service will perform substantially in accordance with the functional specifications set forth in the associated documentation provided to the Customer at the time of contract execution. - (a) The Service as provided to Customer, when used in accordance with this Agreement, infringes any intellectual property rights of a third party (each, a “Customer Claim”).
- (b) There has been a breach of data security, unauthorized access, disclosure, or loss of Customer Data due to Peregrine’s actions or negligence, including but not limited to any failures in complying with the CJIS Security Policy or SB 1382.

9.1.2. Peregrine shall indemnify and hold the Customer Indemnified Parties harmless from and against any liability, loss, damage, claims, expenses, and costs, including without limitation, attorney’s fees, awarded by a court or agreed to in a settlement by Peregrine with respect to such Customer Claim; provided that the Customer:

- (d) Customer’s continued use of the Service or any part thereof after Peregrine advised Customer to discontinue use due to such a claim;
- (e) Third Party Products incorporated into the Service at Customer’s request, unless such incorporation has been authorized by Peregrine in writing, in which case Peregrine will indemnify the Customer.

9.1.4. Should Peregrine believe that the Service is likely to become the subject of a claim of infringement, Peregrine shall at its option and expense:

- (a) procure for the Customer the right to continue using the Service;
- (b) replace or modify the Service so that it becomes non-infringing;
- (c) if options (a) and (b) cannot be accomplished despite Peregrine’s reasonable efforts, terminate the Agreement with respect to the disputed services and refund any pre-paid fees covering the remainder of the term of the terminated services.

9.2. Indemnification by Customer. To the extent permitted by applicable law, Customer shall defend, indemnify, and hold harmless Peregrine and its affiliates, officers, agents, and employees from any claims, damages, losses, liabilities, and expenses, including attorneys’ fees, arising from or related to any third-party claim concerning: (a) Customer’s or its users’ negligence, willful misconduct, or fraud; (b) use of the Service in a manner not explicitly authorized in writing by this Agreement; or (c) the processing of Customer Data by Peregrine strictly adhering to the agreed data handling and privacy terms set forth herein. Peregrine must promptly notify the Customer of any such claim, cooperate reasonably with Customer in the defense of the claim, and allow Customer control over the defense and settlement, except that any settlement requiring Peregrine to admit liability or incur any expense must be consented to by Peregrine, which consent shall not be unreasonably withheld or delayed. Peregrine’s failure to respond to a settlement proposal within fifteen (15) business days will be deemed as consent.

9.3. Sole Remedy. THIS SECTION 9 SETS FORTH CUSTOMER'S SOLE REMEDIES AND PEREGRINE'S SOLE LIABILITY AND OBLIGATION FOR ANY ACTUAL, THREATENED, OR ALLEGED CLAIMS BY THIRD PARTIES RELATING TO THE SERVICE OR ITS USE.

10. Limitation of Liability.

10.1. Exclusion of Consequential and Related Damages. EXCEPT FOR A PARTY'S BREACH OF SECTION 7, A PARTY'S INDEMNIFICATION AND DEFENSE OBLIGATIONS, OR A PARTY'S GROSS NEGLIGENCE, FRAUD, OR WILLFUL MISCONDUCT, IN NO EVENT SHALL EITHER PARTY HAVE ANY LIABILITY TO THE OTHER PARTY FOR ANY LOST PROFITS, LOSS OF USE, COSTS OF PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES, OR FOR ANY INDIRECT, SPECIAL, INCIDENTAL, MULTIPLE, EXEMPLARY, PUNITIVE, OR CONSEQUENTIAL DAMAGES HOWEVER CAUSED AND, WHETHER IN CONTRACT, TORT OR UNDER ANY OTHER THEORY OF LIABILITY, WHETHER OR NOT THE PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

10.2. Liability Cap. NOTWITHSTANDING ANY OTHER PROVISION TO THE CONTRARY WITHIN THIS AGREEMENT, THE AGGREGATE LIABILITY OF PEREGRINE FOR ANY AND ALL CLAIMS ARISING OUT OF OR RELATING TO THIS AGREEMENT, UNDER ANY LEGAL OR EQUITABLE THEORY, INCLUDING BREACH OF CONTRACT, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY, OR OTHERWISE, EXCEED THE TOTAL AMOUNTS PAID TO PEREGRINE UNDER THIS AGREEMENT IN THE THIRTY SIX (36) MONTHS IMMEDIATELY PRECEDING THE CLAIM, EXCEPT IN CASES OF GROSS NEGLIGENCE OR WILLFUL MISCONDUCT. FOR GROSS NEGLIGENCE OR WILLFUL MISCONDUCT, THERE SHALL BE NO CAP ON PEREGRINE'S LIABILITY FOR DIRECT DAMAGES.

11.2. Termination for Cause. A party may terminate this Agreement for cause upon thirty (30) days written notice of a material breach to the other party if such breach remains uncured at the expiration of such period. Upon the occurrence of a Force Majeure Event, the non-performing party will be excused from any further performance of its obligations affected by the Force Majeure Event for so long as the event continues and such party continues to use commercially reasonable efforts to resume performance.

12.5. Federal Government. Any use, copy or disclosure of the Service by the U.S. Government is subject to restrictions as set forth in this Agreement and as provided by DFARS 227.7202-1(a) and 227.7202-3(a)(1995), DFARS 252.227-7013(c)(1)(ii)(October 1998), FAR 12.212(a)(1995), FAR 52.227-19, or FAR 52.227(ALT III), as applicable.

12.6. Additional Government Terms. Notices to Peregrine shall be addressed to the attention of Nick Noone, CEO, Peregrine Technologies, nick@peregrine.io, with a copy to ben@peregrine.io. Notices to Customer are to be addressed to the individual identified in the Order Form.

12.8. Waiver; Cumulative Remedies Severability. No failure or delay by either party in exercising any right under this Agreement shall constitute a waiver of that right. Other than as expressly stated herein, the remedies provided herein are in addition to, and not exclusive of, any other remedies of a party at law or in equity. If any provision of this Agreement is held by a court of competent jurisdiction to be contrary to law, the provision shall be modified by the court and interpreted so as best to accomplish the objectives of the original provision to the fullest extent permitted by law, and the remaining provisions of this Agreement shall remain in effect.

12.9. Assignment. Neither party may assign any of its rights or obligations hereunder, whether by operation of law or otherwise, without the prior express written consent of the other party. Notwithstanding the foregoing, Peregrine may assign this Agreement, together with all rights and obligations hereunder, without consent of Customer, in connection with a merger, acquisition, corporate reorganization, or sale of all or substantially all of its stock or assets that relate to this Agreement. Any attempt by a party to assign its rights or obligations under this Agreement in breach of this section shall be void and of no effect. Subject to the foregoing, this Agreement shall bind and inure to the benefit of the parties, their respective successors and permitted assigns.

12.10. Governing Law. This Agreement shall be governed by the laws of California. The state courts located in Los Angeles County, CA or in the United States District Court for the Central District of California shall have exclusive jurisdiction to adjudicate any dispute arising out of or relating to this Agreement. Each party hereby consents to the exclusive jurisdiction of such courts provided that nothing in this Section 12.10 prohibits either party from seeking or obtaining in any jurisdiction injunctive or similar relief in connection with the enforcement of this Agreement.

12.11. Construction. The division of this Agreement into Sections and the insertion of captions and headings are for convenience of reference only and will not affect the construction or interpretation of this Agreement. The terms "this Agreement," "hereof," "hereunder" and any similar expressions refer to this Agreement and not to any

particular Section or other portion hereof. The parties hereto agree that any rule of construction to the effect that ambiguities are to be resolved against the drafting party will not be applied in the construction or interpretation of this Agreement. As used in this Agreement, the words “include” and “including,” and variations thereof, will be deemed to be followed by the words “without limitation” and “discretion” means sole discretion

12.12. Entire Agreement. This Agreement constitutes the entire agreement between the parties, and supersedes all prior and contemporaneous agreements, proposals or representations, written or oral, concerning its subject matter. No modification, amendment, or waiver of any provision of this Agreement shall be effective unless in writing and signed by the party against whom the modification, amendment or waiver is to be asserted. Notwithstanding any language to the contrary therein, no terms or conditions stated in a Customer purchase order or in any other Customer order documentation (excluding the Order Form) shall be incorporated into or form any part of this Agreement, and all such terms or conditions are hereby rejected and shall be null and void.

Appendix C: Statement of Work

Scope & Description of the Peregrine Service Applications

The Peregrine platform (the “Service,” “Peregrine”), is a web-based, CJIS-compliant software-as-a-service (SaaS) that provides a single point of access to integrate, discover, view, and analyze data from Redondo Beach Police Department (RBPD)-defined data sources. Under this scope of work, Peregrine will integrate data from the following RBPD sources:

- Mark43 RMS
- Mark43 CAD
- Axon Evidence.com
- Vigilant LPR (30-day retention)
- Flock LPR (30-day retention)
- LaserFiche

For LPR data, this scope of work supports 30-day retention of detections and up to 40,000,000 annual detections.

Peregrine is providing these capabilities under a firm-fixed-price license that includes all support, training, and cloud hosting services needed to achieve the project objectives. Additionally, this scope of work allows for an unlimited number of users from RBPD to access and utilize Peregrine.

The platform performs several critical functions including data integration, search and information retrieval, advanced analytics, data management, reporting, data exchange and sharing, access control, audit logging, and security.

The Peregrine platform provides an efficient method for turning large amounts of raw data into actionable information. Peregrine does not provide nor create new data for its customers—our platform integrates existing data and makes it available to end users in a decision-ready state.

DATA INTEGRATION & MODELING

The RBPB has volumes of valuable data, but that value cannot be unlocked because data is scattered across separate systems, siloed in ways that prevent it from being understood and analyzed together. The Peregrine platform is built to rapidly integrate, clean, transform, and model large amounts of raw data from disparate systems and continuously surface actionable information while reducing manual processing needs.

Peregrine Unlocks Data Sources by Integrating Them into a Single, Secure Platform

The platform securely integrates data in near-real time to ensure that users have the most current and reliable information when and where they need it. As data flows into the platform, granular security controls, retention policies, and changes from underlying systems are continuously monitored and applied.

As soon as data enters the platform, it is mapped to an agency-specific data model that is molded to the unique operations of the RBPB. This data model provides a dynamic representation of all data – entities, locations, events, and the links between them. Harmonizing multi-source data into one data model allows users to smoothly analyze data without requiring a technical understanding of the underlying source systems themselves.

The data model is a dynamic layer of the Peregrine platform, one that can evolve and adapt in response to changes in the RBPB's underlying data systems, even as those systems are upgraded or swapped out.

SEARCH & INFORMATION RETRIEVAL

Once data is integrated into the Peregrine platform, it is immediately accessible through front-end applications. Personnel can easily search for data and filter based on criteria relevant for their investigations, analysis, or other workflow. The Peregrine platform is intuitive to use, allowing personnel of varying technical abilities, skillsets, and functions to surface information that is relevant to them and streamline their unique search workflows.

The platform is designed to be walk-up usable; new users of the platform can immediately surface, analyze, and action data by navigating the platform's intuitive user interface and applications. These users have multiple ways to surface and view relevant information, allowing them flexibility to approach questions and decisions in ways that best suit them. These features mean that users arrive at answers more quickly and with

greater accuracy, saving time and effort.

EXPLORATION, VISUALIZATION, & REPORTING TOOLS

The Peregrine platform provides a powerful suite of tools for the exploration, visualization, and reporting of data. These tools enable personnel to create dynamic data products and reports—such as interactive maps, network graphs, and dashboards—that automatically update as new data flows into the platform. Personnel can smoothly move data between analytical tools, viewing the same data in different modalities without having to log into different systems or applications. The following subsections provide more information regarding these analysis tools.

Geospatial Analysis Tool. To better understand geographical assets, events, and trends, the Peregrine platform includes an interactive Map application. The Map allows users to conduct visually intuitive geographical analysis on all agency data, both historical and in real-time. Users can surface trends, make connections, filter to areas of interest, drill into specific events, particular time periods, and add new layers of relevance on top as needed. The Map is designed for next-generation geographic contextual and situational awareness, allowing users to explore and answer specific questions with the most relevant data. The Map is intuitive for all personnel whether they are consuming pre-built analyses, conducting ad-hoc searches, or creating complex geospatial products from scratch.

Link Chart Analysis Tool. The platform's Link Chart aids in the discovery and visualization of connections between otherwise disconnected data. The Link Chart allows users to discover links between people, places, entities, and events across one or multiple degrees of separation. Peregrine's platform also automatically extracts links from both structured and unstructured data to illuminate connections between people, places, events, documents, and media data without requiring manual processing. For example, an address written in narrative form within a scanned document can be automatically linked to a person living at that address or to a vehicle registered there.

Reports & Dashboards. The platform’s report and dashboard applications provide configurable, real-time executive summaries to inform situational awareness, statistical analysis, and decision making. Reports and dashboards are configurable to meet the unique needs and visual preferences of individual users. All reports and dashboards are directly connected to real-time data feeds, empowering users to drill down from high-level summary information to the most granular context with a single click. Once a user creates a dashboard, they can continue to use it indefinitely—and share it as needed.

Temporal Analysis Tool. By centralizing data—and all associated metadata—from data systems, users can understand and surface trends over time. Through an intuitive interface, users can analyze how, e.g., calls for service or types of incidents vary by day of week and time of day. Peregrine supports robust search and query capabilities at the day of week and hour of day level, enabling users to conduct analysis over specific units, in specific shifts, at specific locations. As a result, organization can make more informed, data-backed resourcing decisions to more effectively meet mission outcomes.

Real-Time Alerting. With all data centrally located, users can receive real-time notification on new data from any source system. The Peregrine platform’s alerting technology can notify specific users if a pre-defined data entity was added or removed, viewed, downloaded, renamed, or shared. This includes geo-fenced areas or user-defined polygons. For instance, if a neighborhood is experiencing a trend in a type of crime, a Peregrine user can create an alert through the platform’s “follow” feature. If another similar crime occurs in the defined area, a real-time notification will be sent to all users following this alert via email, SMS, or both.

Mobile Application.

The Peregrine Mobile application has many of the same capabilities as our web-based platform and includes the ability to: search across siloed data systems; rapidly visualize and analyze data with a variety of analytical tools (maps, tables, etc.), securely chat and send information between personnel and teams, and configure custom alerts. Peregrine’s Mobile application is protected through two-factor authentication, including biometric authentication, and all data in the application is fully secured and encrypted to ensure CJIS compliance. This Mobile application is available on both iOS and Android devices.

Permission-based Collaboration & Sharing

The Peregrine platform provides features for secure collaboration and sharing that will enable the RBPD to build deeper, trusting partnerships with local and regional stakeholders, including with city leadership and the broader community. The platform's granular access and usage control capabilities prevent unauthorized or inappropriate use or sharing of sensitive data while allowing agencies and departments to share information with their partners in a deliberate, precise, and auditable manner.

Collaboration in the Peregrine platform extends beyond simple data sharing; it also allows for multiple users to work within the same application at the same time across multiple devices and locations. The platform's collaboration features compound the value of users' work by dynamically connecting them in real time with other users who are working with or interested in the same data. In this way, the Peregrine platform generates opportunities for users to improve the quality and speed of their answers by connecting them to users who are asking the same question.

Peregrine's collaboration features will allow RBPD users to share information available in Peregrine with authorized external users (e.g., other neighboring law enforcement agencies) even if those users' organizations do not have their own Peregrine software licenses.

Implementation and Delivery Methodology

Peregrine engages with our customer via fixed-price, annual licenses. A Customer's license includes all needed implementation and delivery support to achieve project objectives.

Implementation team. Peregrine implementation teams consist of software engineering, product development, human-centered design, user engagement, and training experts. The Peregrine implementation team will provide the Customer continuous support and collaborate closely with the Customer to provide use case development, data modeling, data integration, training curriculums, use case / workflow development, and continuous support. This team is committed to ensure that the Peregrine platform is quickly deployed, securely configured, and adopted for its intended purpose.

Solution Timeline & Implementation Model. Each Peregrine platform implementation consists of four steps to maximize success and impact at the outset of our partnership. These steps typically enable implementation and use within 90 days.*

Milestone	Delivery	Deliverable
1 – Kickoff and Scoping	Week 2	- Determine priority order of data integrations and user groups - Facilitate Peregrine team access to data sources and initial users - Set up project team and steering committee
2 – Data Integration, Data Modeling, and User Discovery	Month 1	- Deploy the Peregrine platform - Ingest, integrate, transform, model, and validate data sources - Configure permission controls - Introduce platform to the first set of users - Conduct 45-day steering committee review
3 – Real-time Workflows and Analytics	Month 2	- Initiate user training - Develop and implement user and team-specific workflows
4 – Operationalization and Next Steps	Month 3	- Continue collecting feedback and improve user workflows - Validate work based on actionable results - Identify next steps - Conduct 90-day steering committee review (quarterly thereafter)

** Integration timelines provided are from date of access to relevant networks and data sources.*

Peregrine's implementation team will work with RBPD to get access to appropriate networks and data sources in a timely manner and requires support from the Customer to facilitate such access.

Required Assistance from Customer IT. Under this scope of work, Peregrine will be integrating sources of information that are hosted on premises within RBPD's network and sources that are third-party, cloud hosted systems. Peregrine requests the following support from RBPD IT. The methods outlined below are Peregrine's preferred methods of connecting to relevant networks and systems. Should any of those methods be unavailable, Peregrine will work with RBPD IT to determine the most efficient and effective methods to allow for data access.

- Enable access to RBPD's network by, among other things, enabling an IPSec tunnel that enables Peregrine's access to necessary systems hosted within RBPD's network;
- enable access to RBPD's identity and access management (IDAM) solution in order to enable synchronization with RBPD's login credentials;
- provide read-only accounts to all in-scope RBPD-managed and hosted systems (e.g., Laserfiche);

- provide or facilitate the provision to accounts to all in-scope third-party managed and hosted systems (e.g., Mark43, Evidence.com, Flock, Vigilant).

Support Methodology

Peregrine provides ongoing support to the Customer on a 24x7x365 basis as part of the annual term license. The Peregrine platform includes an integrated support feature by which users can file support issues or ask questions. Additionally, self-help user guides are available in the Peregrine Knowledge Base, designed to answer frequently asked questions and provide walk through guides of common workflows.

System Availability

During any calendar month, the Peregrine system shall be available to users no less than 99.9% of the time on a 24x7 basis, excluding scheduled maintenance of the system, provided that Peregrine is not responsible for any downtime of the applications or software caused by third party data services (e.g., RMS databases). Peregrine shall provide prompt notification as soon as it becomes aware of any actual or potential unscheduled downtime of the system, as well as periodic updates during the unscheduled downtime regarding Peregrine's progress in remedying the unavailability and the estimated time at which the system shall be available.

Issue Response and Resolution
