I respectfully request that the Commission or city staff inform the City Council member for District 1 of any proposed artwork for our district. This communication will ensure that residents are informed and able to provide comments to the Commission and City Council. My family and I feel that the city needs to explore other art avenues beyond murals.

I also request that the Commission seek feedback from the active groups who have been working to keep our esplanade clean and as natural as possible. Residents and visitors want joyful, beautiful, and inspiring art, as well as safe streets. Mosaic art, in particular, can offer vibrant, durable, and community-centered beauty—and plants can serve as magnificent complementary art pieces when thoughtfully paired with mosaic elements.

There should also be a strong focus on practical improvements that benefit the community. Clean streets, safer pedestrian experiences, and traffic-calming measures—such as artist-designed 3-dimensional crosswalks—can beautify the city while improving safety at the same time.

I support public art, but I also believe it should be context-sensitive, community-driven, and balanced with practical neighborhood needs.
