 - (1) Unenclosed pedestrian arcades, outdoor dining areas, courtyards, and publicly accessible private open space may project up to 75% into the required setback.
- (h) Upper floor setbacks. Within the first 30 feet from the front property line, all building elevations above three stories shall have a minimum average setback of five feet from the building face of the lower floors. An additional 5 foot step back is required at every additional two stories above the third.
- (g) Outdoor living space. Each dwelling unit shall be provided a minimum of 200 square feet of outdoor living space (see standards for outdoor living space in Section 10-2.1510).
- (h) Usable public open space. Spaces such as public plazas, public walkways and other public spaces of at least 10% of the F.A.R. shall be provided, except for qualifying Affordable Housing Projects (Housing Element) as defined in section 10-2.402, which may reduce the requirement to 5% of the F.A.R.

~~Section 10-2.1430 Specific purposes, (AHO) affordable housing overlay zone~~

~~In addition to the general purposes listed in Section 10-2.102, the specific purposes of the affordable housing overlay (AHO) zone are to:~~

- ~~(a) Implement the City's 2021-2029 Housing Element and the "R" Residential Overlay land use category identified in the General Plan Land Use Element, including the following AHO sites:
 - ~~(1) North Tech~~
 - ~~(2) South of Transit Center~~
 - ~~(3) South Bay Marketplace~~
 - ~~(4) Kingsdale~~
 - ~~(5) 190th Street, and~~
 - ~~(6) FedEx~~~~

~~Section 10-2.1432 Applicability, (AHO) affordable housing overlay zone~~

- ~~(a) Applicants may elect to apply the provisions of this division to AHO projects (see Section 10-2.402 for definition), within an AHO site (see Section 10-2.402 for definition) if the project meets the requirements of an AHO project under either qualifying tier as follows:
 - ~~(1) Tier 1. Any project within an AHO zone with a residential component, including transitional housing, supportive housing, and employee housing, that occupies at least 50 percent of the total existing or proposed floor area within the project site shall qualify as a Tier 1 project. Low Barrier Navigation Centers also qualify as a Tier 2 project. All provisions of this division shall apply to Tier 2 projects.~~~~
- ~~(b) Projects that do not qualify as an AHO project and any project for which the applicant does not elect to pursue the special regulations or standards allowed by the AHO zone shall be subject to all regulations and standards of the base land use zone (herein referred to as the "underlying" zone), with the following exception:~~

~~(1) If the underlying zone allows for residential development, the minimum density established by the AHO overlay (Section 10-2.1444(a)(1)) shall prevail over the minimum density of the underlying zone, if any.~~

~~Section 10-2.1434 Relationship to underlying zone, (AHO) affordable housing overlay zone~~

~~(a) Where the AHO zone has been imposed, the regulations and standards of the underlying zone shall remain in full force unless an AHO project is proposed and the applicant has elected to use the provisions of AHO zone, with the following exception:~~

~~(1) If the underlying zone allows for residential development, the minimum density established by the AHO overlay (Section 10-2.1444(a)(1)) shall prevail over the minimum density of the underlying zone, if any.~~

~~(b) Where the AHO zone has been imposed on an area where another overlay zone exists, regulations and standards of the other overlay zone shall be treated as part of the underlying zone, with the exception of the minimum density as noted in Section 10-2.1434(a)(1).~~

~~(c) Where imposed, the AHO zone shall be added to the underlying zone designation to establish a new zone designation. The zone of the affected properties shall thereafter be designated on the Zoning Map by the symbol of the underlying zone, followed by the parenthetically enclosed letters of "AHO".~~

~~Section 10-2.1436 Housing and affordability incentives, (AHO) affordable housing overlay zone~~

~~(a) Tier 1 AHO projects. Tier 1 projects are allowed through the establishment of the AHO zone. The AHO zone encourages housing development by allowing for housing in areas of the city where it would not otherwise be permitted including the North Tech, South of Transit Center, South Bay Marketplace, 190th Street, and portions of the Kingsdale AHO sites, and by raising the permitted density for AHO projects, and establishing a minimum density for all residential and mixed-use projects that include residential (applicable on the FedEx and portions of the Kingsdale AHO sites).~~

~~(b) Tier 2 AHO projects. To encourage the inclusion of housing affordable to lower income households, Tier 2 projects shall benefit from the same provisions as Tier 1 projects as well as the following:~~

~~(1) Tier 2 projects shall be permitted by right, processed through administrative design review per Section 10-2.2500, and approved if all objective standards are met, consistent with State law.~~

~~(2) The requirement to provide usable public open space per Section 10-2.1444(h) may be reduced to 5%.~~

~~Section 10-2.1438 Land Use Regulations, (AHO) affordable housing overlay zone~~

~~In the following schedule the letter "P" designates use classifications permitted in the specified zone and the letter "C" designates use classifications permitted subject to approval of a Conditional Use Permit, as provided in Section 10-2.2506. Where there is neither a "P" nor a "C" indicated under a specified zone, or where a use classification is not listed, that classification is not permitted. The "Additional Regulations" column references regulations located elsewhere in the Municipal Code.~~

~~Section 10-2.1442 Performance Standards, (AHO) affordable housing overlay zone~~

- ~~(a) Purpose. The purpose of this section is to ensure that new residential uses in AHO zones are not adversely impacted by the commercial or industrial uses within the project or on adjacent properties and existing residential uses adjacent to AHO zones are not adversely impacted by the AHO project, including, but not limited to noise, light and glare, odors, air quality, and safety impacts. In the interests of both the residents and the businesses, no AHO project shall be approved unless the project is designed to meet the following performance standards, in addition to all other applicable regulations of this chapter.~~

- ~~(1) The maximum units allowed within each AHO Sites may be clustered on individual lots or an assemblage of contiguous lots under common ownership, provided the cumulative density of all parcels within the AHO site does not exceed the maximum density. Units up to the cluster maximum (the maximum units allowed within each AHO site) shall be considered part of the base density before any density bonus. Clustering of density shall be allowed on a first-come basis, to incentivize the production of housing and to allow for residential uses to be clustered in the developable portions of the AHO sites, such as parking areas, while existing uses remain.~~
- ~~(2) When a project is submitted for review and consideration, it must identify the maximum units allowed within the AHO Site, the number of entitled and proposed units within the AHO site, separated by base units and those permitted with density bonus (if any) to demonstrate that the total entitled base units combined with the base units of the proposed project do not exceed the cumulative density allowed within the AHO site. The following table identifies the gross acreage of all properties within each AHO site, the maximum density allowed, and the cluster maximum (the maximum units allowed within each AHO site based on the gross acreage and maximum density):~~

AHO Site	Site Size (gross acres)	Max. Density (sq.ft./unit)	Cluster Maximum (Site Size / Max. Density)
North Tech	8.0	792	440
Kingsdale	2.4	792	132

- Acreage shall be converted to square footage using a conversion factor of 43,560 square feet = 1 acre.

~~(c) Mixed-use development.~~

- ~~(1) Residential development shall be consistent with Sections 10-2.1444(a) and (b).~~
- ~~(2) Overall FAR. The total FAR for all components of a mixed-use project shall not exceed 1.50 FAR. FAR shall be calculated including both residential and nonresidential uses before any density bonuses are applied.~~

~~(d) Minimum lot size, AHO projects: 12,672 square feet of lot area.~~

~~(e) Building height and stories. No building or structure shall exceed the maximum height (see definition of building height in Section 10-2.402) or number of stories (see definition of story in Section 10-2.402) for each AHO site, as follows:~~

Division 15 (IF) industrial Flex Overlay Zone

Section 10-2.1450 Specific purposes, (IF) industrial flex overlay zone.

§ 10-2.1450 Specific purposes, (IF) industrial flex overlay zone.

The specific purpose of the IF Industrial flex overlay zone is to implement the city's General Plan by allowing development that provides for an integrated mix of light industrial and commercial and/or office uses such as: commercial, research and development, incubator space, creative or technology-based businesses, offices, hotel, and supporting commercial uses. The overall character in this designation is intended to be a creative/tech incubator district with supporting uses. For the purpose of this section, an incubator space is defined as a facility with shared space intended to nurture and accelerate the growth of new businesses. It typically provides resources such as office space, access to shared services and other resources to help entrepreneurs launch their business.

In addition to the general purposes listed above and in Section 10-2.102, the specific purpose of the (IF) Industrial flex overlay zone is to:

- (a) Provide opportunities to integrate new creative or technology-based uses in horizontal or vertical mixed-use developments with commercial, office and hospitality uses;

~~(1) Encourage residential uses in conjunction with other nonresidential activities in the IF overlay zone on properties that are also designated with an AHO overlay zone to create a mix of uses that allows for the~~

~~integration of new residential housing opportunities in close proximity to transit, job centers, and commercial service centers.~~

- (b) Encourage compatibility between residential and commercial and industrial uses in areas where **mixed use and residential** ~~the AHO overlay~~ zones directly abut commercial and industrial zones, by permitting greater design flexibility across the existing boundaries of the zones;

1. Section 10-2.1452 Applicability, (IF) industrial flex overlay zone.

§ 10-2.1452 Applicability, (IF) industrial flex overlay zone.

2. Section 10-2.1454 Relationship to underlying zone, (IF) industrial flex overlay zone.

§ 10-2.1454 Relationship to underlying zone, (IF) industrial flex overlay zone.

- (a) The (IF) industrial flex overlay zone may be implemented by the application of one of three zones: CR, I-2 and IC-1 in locations as shown on the map in Section 10-2.1452.
- (b) Where imposed, the (IF) industrial flex overlay zone designation shall be added to the underlying zone designation to establish a new zone designation. The zone of the affected properties shall thereafter be designated on the Zoning Map by the symbol of the underlying zone, followed by the parenthetically enclosed letters "IF" or (IF).
- (c) Where the (IF) industrial flex overlay zone has been imposed, the land use regulations and development standards of the existing land use zone (herein referred to as the "underlying" zone) shall remain in full force, except as follows:
 - (1) A maximum 1.0 FAR shall apply to all commercial and industrial zones within the IF overlay.

- (d) Regional commercial (CR).
 - (1) Residential uses shall not be permitted in the underlying (CR) regional commercial zone, ~~except for projects meeting the requirements of the (AHO) affordable housing overlay zone AHO zone located on properties also designated as AHO (see Division 14).~~
 - (2) Industrial uses that support smaller, technology and incubator spaces, are permitted.

 - c. Warehouse retail and warehouse retail, specialty with a conditional use permit.
 - (8) "Vehicle sales and services" uses are prohibited.
 - (9) Industrial uses that support smaller, technology and incubator spaces, are permitted.

§ 10-2.1456 Development standards: (IF) overlay zone.

Development standards shall be those of the underlying base zone, except as follows:

- (a) Development standards contained in the Zoning Ordinance, other than for floor area ratio, may be varied as desirable or essential to accomplish the objectives of this section, pursuant to Planning Commission Design Review (Section 10-2.2502), further provided that such standards are consistent with all applicable requirements of the General Plan.
