FYI - other than reviewing the application as a property owner, I have no knowledge of 811's ownership and no business relationship. This is my educated opinion as a retired developer who read the materials posted and reviewed the site on Google Earth. After reviewing the application, I believe the proposed variance is both fair and required. When considering the immediately adjacent unit's profile to the street at 205 N Irena and the neighbor a few doors down at 805 Spencer, construction close to the Spencer street is not unsightly, nor uncommon. I expect the 205 N Irena unit has a rear setback on Spencer (immediately adjacent to 811) and thus has already reduced the setback and visual area. I concur with staff and recommend the RBPC to consider and approve.
