# LEGISLATIVE ACTION PLATFORM

# OVERVIEW

The City of Redondo Beach's Legislative Action Platform (LAP) is a dynamic tool for shaping policy, advancing community interests, and engaging collaboratively and productively with our legislative partners on issues impacting our City and the broader South Bay region of Southern California.

The City's LAP provides a streamlined and responsive framework through which the City and its legislative advocates can engage and provide prompt input, support, and solutions in response to proposed state and federal legislation impacting our community. It serves as a strategic tool for identifying and prioritizing key legislative issues.

The LAP is designed to proactively advance the interests of our City and community stakeholders on priority issues, as formulated by the City Council, through timely and targeted advocacy that responds to legislative and regulatory developments. It also maintains the flexibility to address emerging matters throughout the legislative session. Additionally, the LAP supports the existing City Council's goals and policies, as detailed in the City's Strategic Plan and relevant policy documents.

# PROCESS

The City Council, as the governing body of the City, authorizes the drafting of position statements for consideration and approval by the City Council regarding statements and advocacy in furtherance of the City's Legislative Action Platform (LAP). All legislative advocacy efforts shall be coordinated through the City Manager's Office to ensure consistency, accuracy, and alignment with City Council priorities.

Position statements may be issued in the form of letters or electronic correspondence addressing legislative, regulatory, or other matters that align with the City's LAP. These communications may be directed to legislators, legislative staff, executive officials, regulatory board members, and other relevant entities, as deemed appropriate, by the City Manager, designated staff, or the City Council.

Only in exigent circumstances, such as when the City Council is out of session, and an immediate response to a time-sensitive issue is needed, a position statement may be issued without the advance approval of the City Council, provided it has been reviewed and approved by the City Manager.

Matters not addressed within the current LAP shall be brought before the City Council for consideration and direction when considered appropriate by the City Manager or as requested by the City Council. The LAP shall be reviewed annually and may be amended by the City Council as needed to reflect changing priorities, legislative development, and organizational needs.

Staff will manage and monitor a dedicated page on the City's website to ensure public accessibility to the Legislative Action Platform. The webpage would include the platform and share information about the City's established priorities, post adopted position letters, and highlight successes on issues that are included in the Legislative Action Platform.
