Hello commissioners,

Just to start things moving, I have added two maps to www.SouthBayStreets.com: "Redondo Beach Public Art" and "Redondo Beach History" (Mayor Light had inquired about also adding history, and the [Path of History Markers](#) is indeed under the [Redondo Beach, CA Cultural Arts](#) website).

So, this is all very simple and rough at this point. I've just barely started scoping it out, and the whole app is still under development.

But in general, it works! These two types of maps (art and history) seem to fit well in the overall app since it's all about locations. It WAS all about business locations, and adding art and history locations could elevate the city experience for residents and visitors. (Continued below)

Just trying this; there could be different ways to organize these:

- 90266 : [Manhattan Beach Corridors](#)
- 90266 : [Manhattan Beach Downtown](#)
- 90266 : [Manhattan Village Mall](#)
- **90277 : [King Harbor](#)**
- **90277 : [Redondo Beach Art & History](#)** 
- 90277 : [Redondo Beach Corridors & Islands - South](#)
- 90277 : [Riviera Village, Redondo Beach](#)
- 90278 : [Artesia-Aviation Corridor, The](#)
- 90278 : [Redondo Beach Corridors & Islands - North](#)
- 90278 : [South Bay Galleria, Redondo Beach](#)
- 99990 : [Model City](#) (M)

Map Set: Redondo Beach Art & History

Type: **AllCity** — ZipCode: **90277** — Description: *The public art and historical sites in the city of Redondo Beach, CA, USA.*

Soon we can show the art 'in situ' on maps. What's pretty cool is that we can show the art alone or interleaved with businesses. Here are some candidate 'use cases' for visitors and residents:

1. **The very basics.** I'm visiting: What art is in Redondo Beach and where can I find it?
