The first paragraph of the current Parks and Recreation Element states the following: "The availability of public parkland and recreational facilities greatly influences the quality of life in the City of Redondo Beach. Not only does recreation contribute to the health and well-being of residents, it builds a sense of community by creating low-cost opportunities for physical, social, and cultural interaction." I believe that implementing community gardens in Redondo Beach will improve the quality of life of residents and create opportunities for physical, social and cultural interaction.
