A permit for business doing the proper thing to protect their customers? I'm a Redondo Beach resident who has been to the Pier every week for the last 10 years. We would all agree that much could be done to improve the pier, however this is a huge misstep. Charging businesses for outdoor space when COVID cases are rising again (and a number of businesses are experiencing current outbreaks) seems to not have a grasp on public health safety.

These aren't parking spaces where the city is losing revenue, this was dead space and the businesses that expanded up there brought life to a floundering pier. The outdoor dining above and along the boardwalk brought

life to the pier while providing safety to me and our visitors.

Please work to assist businesses survive and support a safe Redondo Beach Pier for visitors.

I have been a Redondo Beach resident for the last 8 years and have always supported the wonderful local businesses and teams. These teams need us now more than ever with the long lasting economic effects of the pandemic and the morale of their teams. These businesses have been very flexible and forgiving with the ever changing mandates and restrictions and have been able to fight to keep their businesses and livelihoods operating despite multiple challenges. Let's keep the outdoor dining and drinking going - it's been a huge asset to the local community and these businesses need it to survive.

We support Local Restaurants and their ability to have patio dining. They are trying to meet the needs of their customers who are returning after a year of the uncertainty of the pandemic. We do not feel that the Harbor Commission should charge an exorbitant amount for the patio permit. Let's show love and support for these restaurants who are trying to survive at this time.

Submitted At: 7:02pm 08-30-21

Good Evening,

I will be attending the Harbor Commission Meeting tonight and would like to be considered as a representative on the Working Group Public Amenities Plan - Mole B Sub Committee. I believe that there are few members already part of this committee. A rep from Quality Seafood, RB Marina (Craig Stanton), and Mark Hansen.

I believe it is prudent that a Stakeholder from Mole B take part in the sub committee considering the direct impact of the decisions made through the committee and planning.

Thank you for any support in this consideration. Lanakila Outrigger is excited to see progress in the harbor and hope that we can continue the progress we made prior to COVID and the waterfront legal scenario.

Thank you for your time and consideration.

Moses Ramler

President - Lanakila Outrigger Canoe Club

I recommend Moses Ramler (Lanakila OCC President) be selected as a Member of the Working Group as a Stakeholder on Mole B. He has been involved in the Mole B planning for a number of years and his input would be invaluable in his fast tracked portion of the planning process.
